

## Prices-Fork-Road Fire-Station Bike Path

This Fall, a ~1 mile bike path has been constructed. It runs from the Fire Station on Prices Fork Road towards Glade Road (Figure 1). The path ends at a barrier. The path is "gently rolling" with an elevation change of about 135 feet (Figure 2). For further information about this path, see the January 6, 2013 report on [the Striders Huckleberry Trail Web page](#).

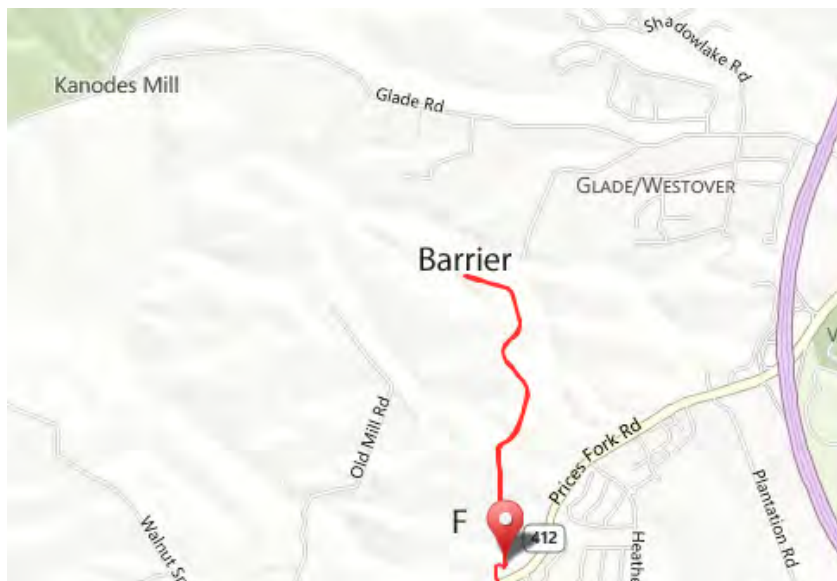

Figure 1: Figure 1: The fire station is marked by F and the red arrow. The total length from F to the Barrier is just under one mile.

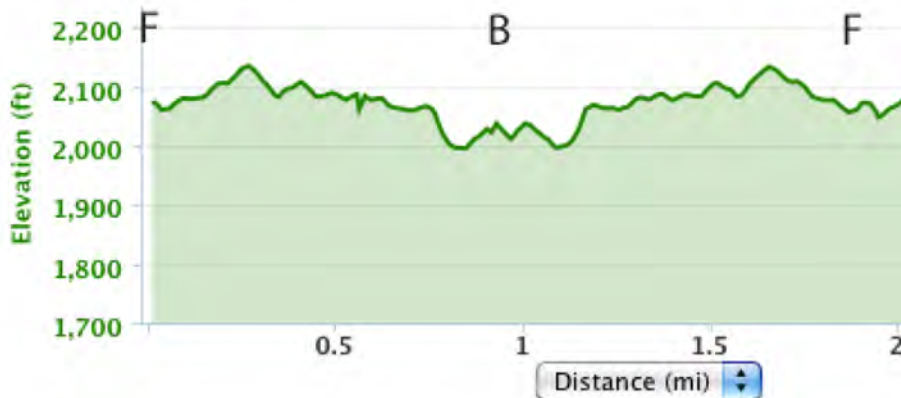

Figure 2: Distance vs. elevation for an out-and-back from the fire station (F) to the barrier (B).
